

CITY AND REGIONAL PLANNING MINOR

The City and Regional Planning (CRP) Minor ensures that students will gain some exposure to history, theory or methods in city and regional planning. City and regional planning is a vibrant field that focuses on the future and quality of life in cities, towns, and regions. The curriculum is designed to be flexible to allow students to take courses that most meet their interests in city and regional planning.

The minor consists of 12 credit hours from the section's offerings. At least 6 credit hours must be in courses at the 3000-level or above.

No permissions or approvals are required from the section to pursue the CRP Minor, though students should alert college or school counselors of their intent to complete the minor, so that the correct plan can be assigned to their records and tracked in the degree auditing system.

Required courses – 6 credit hours:

CRPlan 2000: Introduction to City and Regional Planning, 3

CRPlan 4597: The Global Environment in Planning, 3

Electives – 6 credit hours:

The remaining credit hours are to be chosen from any City and Regional Planning courses at the 2000, 3000, or 4000 level. CRPlan 5798 can also fulfill minor requirements. Some of these courses have prerequisites. Students would need to consider whether they meet the prerequisites before selecting the electives that are most appropriate for their interests.
